unusual treasures in silk

Raeshmi®

luxury bedding & accessories

Our Silk Story®

Silk Story® is for the delight of all who love the lustrous magic of silk.

We are a small and very enthusiastic team, guided not by any deep knowledge of the industry or proven formula for success, but by our passion for silk, an eye for the unusual, a commitment to innovation, quality and compelling value, and a desire to make a go of a venture that we thoroughly enjoy.

We look for uncommonly creative, artistic and sustainable uses of silk; develop products that best showcase the artisans' skills and the fiber's versatility; and share our success with the communities that help create our products.

From intricate hand-embroidered silk artwork (SiXin®) to luxurious bedding (Raeshmi®), we constantly research and refine our products. We work only with artisans who share our high standards. Everything has our stamp of innovative design and meticulous construction, is responsibly and ethically made, reasonably priced and easy to acquire, use and maintain.

Silk-Filled Duvets

Using a silk-filled duvet is like sleeping in a cloud. It's incredibly soft, smooth and cozy as it drapes you in weightless comfort. And, unlike even the very best eiderdown, it's naturally allergy free, will not leak or shift, is perfectly silent, and can be used year round.

Our duvets come in three weights:

All-Season – for use in a heated or cooled room

Summer – a lighter cover for balmy weather

Pick-a-Side® – dual-weight for couples with different warmth preferences

Every duvet uses the highest quality, long strand mulberry silk fill. Our duvets are encased in a choice of 230-count white cotton dobby or rose-petal-soft silk-cotton Whispercale® or, for the ultimate in weightless luxury, a light-as-air, pure silk habotai.

Custom styles and fabrics are available under private label.

Experience blissful sleep like never before.

PillowMates®

A Silk Story® Innovation

Silk-filled pillows are luxurious and healthful but lose loft as the fill flattens with use. Overstuffing helps, but significantly (and needlessly, we think) adds to the cost of the pillow.

Enter a Silk Story® original – the silk-filled PillowMate®. Simply unzip the 3-sided opening, place your favorite pillow inside and zip it up. Then install a pillow case.

The result: a generous layer of silk touching your hair and skin, in a pillow that's familiar and feels great. It's the best of both worlds!

PillowMates® are compact and great for travel. Bring one along, and instantly transform an unfamiliar hotel pillow.

In the leather-bound silk throw, cashmere-soft silk fleece is garlanded with a 1½" wide leather trim for a warm, rich finish.

A striking selection of colors is available — masculine grays and browns, an elegant ivory and even a nautical-themed blue.

Whispercale[®] Robes & Sleepwear

Imagine a shirt that's soft cotton on the inside and smooth silk on the outside. We've created it, using a special weaving technique that combines the two fibers in distinct layers within a single, luxurious fabric. We then specially treat it so the cotton swells and relaxes into an amazing hand, and the bright shine of the silk ebbs to a subtle, welcoming glow.

We call our creation Whispercale[®]. It's pre-shrunk and color fast. It can be machine washed and tumble dried. Ironed or not, it looks smooth and inviting.

Whispercale[®] is now available in women's pajamas and unisex robes. Featuring soft, neutral colors, they're finely tailored with French seams and self-fabric piping. Robes have quilted shawl collars, pockets and cuffs. Pajamas have a menswear silhouette with notched collar, mother-of-pearl buttons and elastic waistbands with drawstrings.

Wearing them is like draping yourself in rose petals.

Eye Masks

Raeshmi® eye masks have a generous filling of mulberry silk floss encased in pure silk satin. The soft elastic headband is also covered in silk satin.

Result: a buttery-soft mask that cradles your face. So go ahead, shut out the world for a delicious, well-deserved siesta.

Our textured eye mask uses a unique fabric called Gambiered Canton silk. This silk is hand-dyed by repeated soaking in red yam juice and drying. Smooth black pond clay is then spread on the fabric and dried in the sun. When the silk is finally washed, it emerges a delightfully light fabric with the smooth touch of silk and the crispness of linen. Its black color is softened by veins of deep red which give it the look of weathered leather.

Custom styles, fabrics and colors are available under private label.

Art Renditions in
Hand Embroidered Silk

About SiXin®

Continuing with our tradition of exquisite craftsmanship, Silk Story® also produces hand-embroidered renditions of fine art which we call SiXin®.

Originating 2,000 years ago in eastern China, embroidered silk was for centuries reserved for the pleasure of the Imperial Court. Today, after years of decline, this art is being revived and is still practiced entirely by hand.

Thin needles (“brushes”) and fine thread (“colors”) are used to “paint” vibrant images of landscapes, people, flora and fauna, and extraordinary renditions of photographs and paintings. Unlike oil or watercolor, embroidered silk shimmers subtly and changes hue as it catches light, and produces remarkable 3-D effects.

Under exclusive licence from famous artists, we produce limited edition SiXin® of their work. Each piece is signed by the artist.

Please visit the gallery at www.silkstory.com/sixin and contact us for details.
